Aqara

U100

Smart Lock · Your key to a smarter and safer home.

- **Apple Home and Home Key support.** Open the door with a touch of the Apple Home app or your Apple Watch.
- **Fingerprint and keypad.** Unlocks within 0.5 seconds at 98.6% accuracy. Frosted matte keys resist peeping, and you can share periodic passwords with visitors.
- **Auto lock and door status sensing.** A built-in gyroscope senses the door state, reminds you if the door is left open, and locks automatically after it closes.

Type	American standard deadbolt, 60 / 70 mm backset	Operation method	Fingerprint, PIN keypad, Apple Home Key and app, NFC card, mechanical key
Finishes	Silver, Shadow Gray	Door type	Wooden swing doors, 35 to 55 mm thick
Connectivity	Bluetooth 5.0 and Zigbee 3.0, over 20 m range	Battery	4 AA batteries, over 8 months at 8 unlocks a day

Aqara

U200

Smart Lock · Ultimate Smart Lock Retrofitted for You.

- **Apple Home Keys and multiple unlock methods.** Unlock with Apple Home Keys through an Apple 2-in-1 Matter controller, or use fingerprint, password, or NFC. One-time and periodic passwords make it easy to share access.
- **Quiet Unlock and smart software control.** Quiet Unlock Mode, automatic alerts and hands-free unlocking work alongside an activity log, auto locking, and anti-peep PIN protection. Passage Mode and Do Not Disturb Mode are available in the Aqara Home app.
- **Hub requirements.** No hub is required for basic local operation in Aqara Home. Remote control and automations through Aqara Home require an Aqara Hub M3. Matter integration requires a compatible Matter controller and Thread border router.

Type	Retrofit smart lock, fits over the existing cylinder	Operation method	Apple Home Key, fingerprint, PIN code, NFC, mobile app
Finishes	Gray	Door type	Doors with Euro profile or select Scandi cylinders

Aqara U300

Smart Lock · A Smarter Handle on Home Security.

- **Matter over Thread support.** The first lever lock to support Matter and Home Key, U300 connects with systems like Apple Home and runs up to 10 months on a set of replaceable batteries, working with other Aqara devices through the Aqara Hub M3.
- **NFC and Apple Home Keys.** Unlock with a tap from an iPhone or Apple Watch, even when they are out of power, or use a high-security NFC card that cannot be copied.
- **Ergonomic fingerprint reader in the handle.** The reader is built into the handle for instant access with a simple grasp. It stores up to 50 fingerprints, unlocks in 0.3 seconds, and uses a 160×160 sensor with a false acceptance rate below 0.0001%.

Type	Smart lever handle lock	Operation method	Fingerprint, PIN keypad, NFC, Apple Home Key, Bluetooth app, mechanical key
Finishes	Black, Silver	Door type	Wooden swing doors

Aqara U400

Smart Lock

- **Hands-free unlock with Ultra Wideband.** Approach with a UWB-enabled iPhone or Apple Watch and the door unlocks instantly, no tapping, swiping or codes required. UWB gives precise, private detection for truly hands-free entry. UWB hands-free unlocking requires a compatible iPhone or Apple Watch and a Thread-enabled Apple home hub.
- **Advanced fingerprint reader.** A 160×160 pixel sensor unlocks in 0.3 seconds with up to 98.6% accuracy and a false acceptance rate below 0.0001%, and stores up to 50 fingerprints with on-device AES encryption.

Type	Smart deadbolt	Operation method	UWB hands-free, Apple Home Key, fingerprint, PIN keypad, NFC card, voice, mechanical key
Finishes	Black, Silver	Door type	Wooden doors with standard deadbolt bore

Aqara

U50

Smart Lock · The Complete Smart Lock for Every Home.

- **Apple Home and Home Key support.** A touch of the Apple Home app or an Apple Watch opens the door immediately, no keys needed.
- **Automations with Aqara and third-party devices.** Through an Aqara Zigbee 3.0 hub, the U50 integrates with Google Home and Alexa for custom automations.
- **Door status sensing and auto lock.** A gyroscope senses the door and locks it automatically when closed, with an alert sound if left open, plus a quiet mode for nighttime and an always-open setting for busy places.

Type	Smart deadbolt	Operation method	Apple Home Key and app, PIN keypad, NFC card, mechanical key
Finishes	Black	Door type	Wooden doors with standard deadbolt bore
Connectivity	Zigbee, Bluetooth, NFC	Power	AA batteries (6V), USB-C emergency port (5V)
Water resistance	IPX5	Dimensions	135.8 × 74.8 × 88.4 mm

Aqara

B50

Smart Lock · An affordable, hub-free smart lock with multiple ways to unlock.

- **Control your door from anywhere. No hub required.** Built-in Wi-Fi lets you lock, unlock, and check activity and status anytime using the Aqara Home app, Alexa, or Google Home.
- **Multiple ways to unlock.** Open the door with a passcode, app control, voice commands, a physical key, or offline passwords that work without Wi-Fi and can be shared remotely.
- **6 months of battery and an emergency charging port.** Four AA batteries last up to 6 months, based on 5 passcodes plus 5 remote unlocks a day, and a USB-C port gives an instant, brief charge if power runs out.

Type	Deadbolt	Operation method	Passcode, mobile app, voice, offline passwords, mechanical key
Finishes	Black	Door type	Backset 60 mm or 70 mm. Bore hole diameter 54 mm or 38 mm. Door thickness 35 mm to 54 mm

Aqara
A100 Zigbee
Smart Lock

- **18-month battery life.** The included 8 AA-type batteries will last for more than 1.5 years.
- **9 unlock methods.** Fingerprint, permanent password, one-time password, periodic password, NFC card, mechanical key, Aqara Home app, HomeKit or Siri, and Google Assistant.
- **Fast and ergonomic fingerprint reader.** A fast fingerprint reader is embedded into the handle so your thumb naturally touches it when opening the door.

Type	Smart mortise lock	Operation method	Fingerprint, PIN codes, NFC card, mechanical key, app, Siri and Google Assistant
Finishes	Black	Door type	Wooden swing doors
Connectivity	Zigbee, Bluetooth 5.0, NFC	Battery life	18 months

Aqara
D100 Zigbee
Smart Lock · The flagship fully automatic door lock with premium design.

- **Fully-automatic lock body.** No need to push the handle, the lock opens automatically. D100 Zigbee was Aqara's first fully automatic smart door lock sold globally.
- **Google Assistant and HomeKit support, including Home Key.** Designed to work with HomeKit, including the Apple Home Key feature, and also supports unlocking via Google Assistant or the Google Home app.
- **1-year Li-Ion battery.** The Lithium-Ion battery pack provides about one year of battery life and is equipped with a USB-C port for easy charging.

Type	Fully automatic smart mortise lock	Operation method	Passwords, fingerprint, NFC card, mechanical key, app, Apple Home Key, Google Assistant
Finishes	Black	Door type	Wooden doors, 40 to 120 mm thick
Connectivity	Zigbee, Bluetooth 5.0, NFC	Battery life	About 12 months per charge

Aqara

D200i

Smart Lock

- **Instant face recognition.** 3D structured light face recognition verifies your identity from about 0.5 meters away for fast, high-accuracy unlocking.
- **Apple Home Key support.** Once HomeKit is bound, a key card is added automatically to Apple Wallet, so an iPhone or Apple Watch can unlock the door as an NFC key.
- **Fully automatic unlocking.** After identity verification succeeds, push or pull the outer handle to open, and the lock can unlock and lock automatically as the door closes.

Type	Fully automatic smart lock with face recognition	Operation method	Face recognition, passwords, Apple Home Key and HomeKit, Aqara Home app, NFC, mechanical keys
Finishes	Black	Door type	Wooden swing doors
Connectivity	Bluetooth 5.1, Zigbee, Wi-Fi, NFC	Power	Replaceable lithium-ion battery (7.5V 1.5A), USB-C emergency power supply (5V 2A)
Outer panel	406 × 77 × 20 mm	Inner panel	406 × 77 × 26 mm

Smart Mortise 2 · More than one way to get home.

- **PIN codes, Bluetooth keys, or RFID.** The Smart Mortise 2 offers a wide variety of access modes, PIN codes, Bluetooth keys, or RFID tags and stickers, integrated with a handle for a one-stop solution on any door.
- **Works offline with algoPIN.** The Mortise 2 works offline for enhanced reliability and security, and its algoPIN technology grants PIN code access without needing an extra app or a WiFi connection.
- **Grant and track access remotely.** Choose permanent, duration, one-time or recurring PIN codes and Bluetooth keys from the igloohome app on iOS or Android, and Airbnb hosts can sync their calendar for automatic guest codes.

Type	Smart mortise lock with handle	Operation method	Entry: PIN code, Bluetooth key, RFID tags and stickers, physical key. Exit: handle, lock/unlock button
Finishes	Black	Door type	Wooden swing door (Left/Right)
Battery life	Up to 18 months	Power type	8 AA alkaline batteries

igloohome

IGM4

Smart Mortise 2+ · Access at your fingertips.

- **Fingerprint, PIN code, Bluetooth key, or RFID.** The Smart Mortise 2+ offers fingerprint authentication, PIN codes, Bluetooth keys, and RFID tags and stickers, integrated with a handle for a one-stop solution on any door.
- **High-speed fingerprint reader.** A 2D capacitive-contact sensor with 508 DPI spatial resolution captures up to 2 megapixels per second and recognizes over 3.5 million finger placements, storing up to 100 fingerprints.
- **Works offline with algoPIN.** The Mortise 2+ works offline for enhanced reliability and security, and its algoPIN technology grants PIN code access without needing an extra app or a WiFi connection.

Type	Smart mortise lock with fingerprint	Operation method	Entry: fingerprint, PIN code, Bluetooth key, RFID tags and stickers, physical key. Exit: handle, lock/unlock button
Finishes	Black	Door type	Wooden swing door (Left/Right)

igloohome

MP1F

Push-Pull Mortise · Effortless for your whole family.

- **Just push or pull.** Instead of turning knobs or handles, the Push-Pull Mortise opens and exits in a single motion, removing the extra step of turning a handle to get home faster.
- **Fingerprint, PIN codes, Bluetooth keys, or RFID.** More than four ways to unlock: register fingerprints, issue duration PIN codes, tap RFID tags or stickers, or use a physical backup key.
- **Works offline with algoPIN.** The lock works offline for enhanced reliability and security, and its algoPIN technology grants PIN code access without needing an extra app or a WiFi connection.

Type	Push-pull smart mortise lock	Operation method	Entry: fingerprint, PIN code, Bluetooth key, RFID tags and stickers, physical key. Exit: handle, lock/unlock button
Finishes	Black	Door type	Wooden swing door (Left/Right)

igloohome

RM2F

Rim Lock Metal Gate 2 · The perfect complement to your smart door lock.

- **The perfect complement to your smart door lock.** The Gate Lock is built for metal gates as an added layer of security, so you can secure your home's entrance without compromising convenience.
- **Fingerprint, PIN code, Bluetooth key, or RFID.** The RM2F unlocks with fingerprint (100 capacity), PIN codes (up to 199), unlimited Bluetooth keys, RFID cards (100 capacity), or a key fob for remote open.
- **Comes with a complimentary Key Fob.** The Gate Lock ships with a Key Fob so you can unlock your gate and main door at the same time with one click.

Type	Smart rim lock for metal gates	Operation method	Entry: PIN codes, Bluetooth keys, RFID tags and stickers, fingerprint (RM2F only). Exit: Bluetooth keys, key fob, mechanical keys
Finishes	Black	Door type	Metal gates (Left/Right)

igloohome

RG1-01

Glass Door Lock · The smart lock for you to work, live and play with ease.

- **The smart lock for you to work, live and play with ease.** From offices to retail shops, co-working spaces and homes, the Glass Door Lock brings smart access to properties with glass doors.
- **Hassle-free clip-on installation.** No drilling, no mess. The Glass Door Lock simply clips onto your glass door with industrial strength.

Type	Clip-on smart rim lock for glass doors	Operation method	Entry: PIN code, Bluetooth key, RFID tags and stickers, key fob (separate accessory). Exit: Bluetooth key, multi-function button, key fob (separate accessory)
Finishes	Black	Door type	Glass swing doors (Left/Right)

Smart Lock

SHP-P52
Push-Pull

SHP-A21
Gate Lock

ZD-R70

Smart Lock · Passwordless AI Door lock.

- **Secure 3D facial recognition.** Self-learning facial recognition improves accuracy over time and is designed to resist spoofing attempts using photographs and videos.
- **Unlock in about 1 second, hands-free.** Touch-less access when both hands are full loading groceries. A wide, industry-leading viewing angle recognizes users from 110cm to 185cm tall, so there is no need to search for the camera or bend over.

Type	Mortise lock	Operation method	5-way: Facial recognition, Fingerprint, RF tag key, Wi-Fi app, emergency key
Finishes	Deep Forest, Eclipse Mist, Modern Natural	Door type	Wooden main doors

SHP-P52

Push-Pull · Immediate locks, fully automatic one-step door lock.

- **Scan fingerprint while holding the handle.** Handle touch triggers natural fingertip sensor contact, and fingerprint verification unlocks the door in a quick and easy way. SHP-P52 recognizes a fingerprint in 0.38 seconds, 41% faster than earlier models.
- **Fully automated mortise, locked in a blink.** Automatic mortise makes immediate opening possible right after verification. The door locks again within a split second of closing, as the latch engages the instant the door shuts.
- **Manage the door lock smartly via the app.** View the access log, send temporary or one-time pin codes for guests, and check the door lock status from your phone, wherever you are.

Type	Rigid handle, push-pull automatic mortise lock	Operation method	5-way: PIN code, RFID, fingerprint, Wi-Fi app, emergency key
Finishes	Gold, Black	Door type	Wooden main doors

zigbang
SHP-A21

Gate Lock · Sequential unlock with Zigbang Push Pull Locks.

- **Sequential Unlock with your Zigbang door lock.** Unlock your gate and door lock at the same time for entering and leaving. Activate or deactivate the sequence settings as you like, when paired with a Zigbang SHP-P52 push-pull door lock (Dual Sync Pro).
- **Dual Fingerprint Scanners.** Fingerprint sensors on both the outside and inside units give double security, on top of pin code, NFC and a dedicated remote control that's included.
- **Various access methods.** Use pin code, NFC, fingerprint or the included remote control to get in, with an emergency key kept for backup.

Type	Gate lock with hook-type deadbolts	Operation method	Password, NFC, fingerprint, emergency key
Finishes	Silver and black	Door type	Metal gates, also installable on sliding doors
Emergency power source	9V battery (6LF22), sold separately	Voltage	Four AA Alkaline 1.5V batteries (LR6), DC 6V
Weight	1.35kg (including inner and outer bodies)	Product dimensions	Inner body 74(W) x 176(H) x 38(D) mm. Outer body 74(W) x 176(H) x 20(D) mm

Every lock includes professional installation.

- Professional installation at your home by Keyvo, included with every purchase.
- Full setup of the app, fingerprints and codes before we leave.
- Local warranty support, serviced in Singapore.
- Send us a photo of your door on WhatsApp and we'll confirm fit, quote with installation, and book a time.
